RE : PENETRON WATERPROOFING SYSTEM

We are pleased hereby to confirm that Penetron Waterproofing System has been used to rectify, waterproof and protect the lowest basement slab at Tropicana City Shopping Mall for Dijaya Corporation Berhad.

This project was constructed again after abandoned for approximately 10 years; it was formidable challenge for any waterproofing contractor.

The performance of Penetron System is proven to be effective and satisfactory which was successfully undertaken by WMK Coating Sdn Bhd / Penetron Malaysia Sdn Bhd.

I wish them all the best in their future endeavours.

Yours faithfully,
for **MEINHARDT (MALAYSIA) SDN BHD**
