TO WHOM IT MAY CONCERN

This to confirm that the following projects have been successfully completed by the company Inka Manufacturing cc T/A Dampmen for our Directorate.

2009: Cape Town: 7 & 15 Wale Street: Legislature Building: Waterproofing of lift shafts 2010: Cape Town: 4 Leeuwen Street: Waterproofing of basement walls

The expertise of Dampmen was called upon to assist and advise as to the method of rectifying the problems. On both occasions, the full Penetron application and specification were utilized, thus alleviating the major problems we had with water entering the lift shafts and the basement.

We can highly recommend the company Dampmen and the product Penetron.

Regards

Vivian du Toit Assistant Manager: Technical Services Directorate: General Provincial Facilities Cape Town
